Lifeline

Pikes Peak Citizens for Life works to protect the innocent, helpless, vulnerable members of our human family - young and old, infirm and healthy, born and preborn.

November 2020

COVID-19 Vaccine & Treatment Update

On the same day that President Trump unveiled a deal with CVS and Walgreens to make COVID19 vaccines available to senior citizens and nursing homes at “no cost” to them, Pfizer Inc. announced their COVID19 vaccine may be ready in November.

In announcing the progress, President Trump acknowledged the toll COVID has taken [on the elderly](#).

“Older Americans have endured months of isolation, missing weddings, birthdays, graduations, church and family reunions. My message to America’s seniors today is one of optimism, confidence and hope. Your sacrifice has not been in vain. The light at the end of the tunnel is near. We are rounding the turn.”

While this is good news for a nation stricken by COVID-19 fears, the best news for pro-life activists is that **Pfizer’s research has been conducted in a moral manner without using aborted fetal tissue** (see #4 on green list at right).

The chart at right is based on data from Children of God for Life (cogforlife.org). They have been closely following the development of COVID19 vaccines and treatments and have developed excellent resources for tracking the use of fetal cells in all vaccines and medical treatments. Visit their website for:

- [Ethical alternatives to aborted fetal products](#)

Trump COVID-19 Treatment Controversy

On a related note, pro-abortion Democrat Ted Lieu attacked President Trump, claiming that one of the President’s treatments, “Regeneron” relied on “human embryonic stem cells.”

Regeneron does in fact appear on the “Ethically” (#14) as well as “Unethically” (#10) Produced Lists. However, Alexandra Bowie, a Regeneron spokesperson, strongly refutes Lieu’s attack, insisting that *“This particular discovery program (REGN-COV2) did not involve human stem cells.”*

According to the Daily Caller, the controversy erupted because *at one point Regeneron used laboratory tests that relied on a “standardized supply of [HEK 293T] cells” to assess whether the treatment was potent.*

MORALLY PRODUCED

COVID-19 Vaccines & Treatments which are using adult cells, or plant, animal or bacteria

1. Athersys-Multistem-Treatment (adult stem cells)
2. AVM Biotech-AVM-0703 (steroid)
3. BCG Vaccine (no cells involved)
4. BioNTech and Pfizer (K562-cells from a 53-yr old female cancer patient in a protein expression)
5. British American Tobacco (uses tobacco leaves)
6. Codagenix & Serum Institute (vero cells / monkeys)
7. Curevac (mRNA uses patient’s own muscle cells)
8. Institute of Microbiology, Chinese Academy of Sciences Zhifei Longcom (hamster ovary cells)
9. Israel – Pluristem (using placenta donated from newborn babies)
10. JPII Medical Research Inst. w/ Cellular Engineering Technology (postnatal placental tissue)
11. Medicago/GSK/Dynavax (plant cells)
12. Merck and IAVI (vero cells / monkeys)
13. Novavax - NVX-CoV2373 (insect cells & saponin)
14. Regeneron-Sanofi (blood donor & hamster ovary cells)
15. Sanofi Partners w/GSK (Insect cells/AS03 adjuvant)
16. Sanofi Pasteur (uses insect cells)
17. Sinovac Biotech (vero cells / monkeys)
18. Sorrento Therapeutics (K562-adult cancer cells)
19. Symvivo (e-Coli and Bifidobacterium)

UNETHICALLY PRODUCED

COVID-19 Vaccines & Treatments which are using aborted human fetal cells

1. Altimmune
2. AstraZeneca (halted for adverse trial reactions)
3. CanSino Biologics
4. Inovio Pharmaceuticals
5. Johnson & Johnson (w/Emergent Biosolutions) - halted
6. Johnson & Johnson (w/ Janssen Tech) – halted/safety
7. Lindsley F. Kimball Research Institute, NY Blood Center & Beijing Inst Microbiology & Epidemiology
8. Massachusetts Eye & Ear
9. Moderna & NIAID
10. Regeneron (Antibody Cocktail) Initial attempt - used Spike Proteins to mimic the virus using “immortalized” cells which have been highly modified
11. University of Oxford
12. University of Oxford (with Merck Germany)
13. University of Pittsburgh

PPCFL Officers and Directors

President	Matt Niedzielski
Vice President	Julie Bailey

The President's Corner

This newsletter should make it to you just days before the end of the 2020 general election. If you have not voted, I urge you to do so by the November 3rd deadline. Return your ballot via the election drop boxes to ensure it gets to election officials in time to be counted.

In order to build a culture of life in our cities, our state, and our nation, it is necessary to have political candidates and laws that defend life. Therefore, we strongly encourage you to vote only for candidates who will defend life, and to support any ballot initiatives that put the defense of life into law.

We are extremely grateful for all of you who have expended so much effort getting the word out about Proposition 115, the late-term abortion ban that is on this year's ballot. It has been very heartening to see so many people step up to gather petition signatures (especially during the COVID restrictions!), to disperse information via flyers and yard signs and simple word-of-mouth by going door-to-door and interacting with family, work associates, fellow church members, and neighbors, and by donating financial resources that are essential for communicating a message to a large number of people in a very short time.

While we pray and hope for a completely pro-life conclusion to this election, **we will continue to work on building a culture of life regardless of the election outcome.** We encourage all of you who have stepped up during this election season to stay actively involved in the pro-life movement. PPCFL has many volunteer opportunities and we would love to have your help. Please remain persistent if you contact us and don't immediately hear from us as we sometimes get behind on responding to queries. If at first you don't succeed, try, try again!

We also thank all of you who have helped us with our Roses for Life project and who turned out for one of the Life Chains on October 4th. Life Chain attendance nearly doubled this year over last year, thereby making a greater impact as a witness to life in the Pikes Peak region.

With your continuing help we can make our society safe for all who are in the womb, all who are ill or injured, all who are disabled or non-perfect, all who are afraid or disillusioned, and all who the culture of death call "unwanted".

Even after the 2020 ballots are counted, the hard labor will continue. Remember: **We are building a culture of life!**

Matt

Life Chain Doubled in Size for 2020

Thanks to the incredible efforts of many volunteers, our 90 Minute Life Chain doubled in size this year. Nearly 500 people joined the lines in Colorado Springs and Monument to witness to the critical importance of DEFENDING HUMAN LIFE!

Life Advocates, This Is Our Esther Moment

Trevor Mallory, Colorado Springs Pastor and PPCFL Board Member

A crucial issue that won President Trump the election in 2016 was his key promise to reform the judiciary and appoint pro-life judges.

Since becoming President, Trump has kept his promise to Christians and all pro-life Americans, by prioritizing the appointment of over 200 federal judges. Judges that consistently rule in line with the Constitution, religious freedom, and the truth that *“all humans born and unborn are made in the holy image of God.”* – Donald Trump.

In the past, many politicians have made empty promises to Christians to get elected, but Donald Trump has kept his word. President Trump:

- Consistently advocates for the unborn.
- Fought for employers to not be coerced to pay for abortion drugs.
- Halted federal taxpayer funded experimentation on aborted babies.
- Protected the conscience rights of health care workers.
- Re-implemented and expanded the Mexico City Policy, to ban funding of international abortions.
- Partially defunded Planned Parenthood, and removed abortion providers from receiving funds in the Title X program.
- Advocated for the *Pain Capable Unborn Child Protection Act* and *Born Alive Infants Protection Act*
- First President ever to attend the **March for Life**.

Americans elected Trump with a mandate to take back the Supreme Court. Christians have prayed for Trump to end abortion. At the recent death of pro-abortion justice Ruth Bader Ginsburg, Trump nominated Judge Amy Coney Barrett – consistently portrayed as a defender of human life.

True to President Trump’s promise, Judge Barrett’s confirmation will establish a strong pro-life majority on the nation’s highest court. This moment is an answer to our cries to God, and the cries of millions of innocent babies.

In the Bible, God brought Esther to the kingdom to save her Jewish people from destruction. In 2020, God is raising up a righteous woman to the Supreme Court to save American babies from abortion. We are one Justice away. This is our Esther moment!

National Adoption Month Welcomes Newly Famous Adoptive Mom “ACB”

What better way to celebrate National Adoption Month (Nov) than with a newly famous adoptive mom?

Judge Amy Coney Barrett (“ACB”) and husband Jesse have five biological children, Emma, Tess, Liam, Juliet, and their youngest Benjamin, a special needs child with Down syndrome. Her adopted children, Vivian and John Peter, are from Haiti. In an interview with Notre Dame Law School in 2019, she shares her adoption experience:

“Vivian is amazing. She was 14-months-old when she came home, and she couldn’t make any sounds at that point, nor could she pull herself up to a standing position, and she was wearing size 0-3 month clothing because she was just so malnourished. At the time they told us they just weren’t sure whether she would speak.”

She also describes the dilemma of the Haitian agency unexpectedly opening the door to the adoption of John Peter on the same day that she discovered she was pregnant with Juliet.

“We had an intense three hour period where we had to decide whether we would go forward... I thought what greater thing can you do than raise children? That’s where you have your greatest impact on the world,”

To hear more of her inspiring story, go to YouTube and look up [“A Conversation with Judge Amy Coney Barrett ’97 J.D.”](#) on the Notre Dame Law School channel. *(The adoption tale begins 24 min. into the interview.)*
